MARINE CHEMISTRY

Contents

Marine Chemistry, Vol. 54 (1996)

Research Papers

Photochemically induced redox reactions in seawater, II. Nitrogen and iodine
L.J. Spokes and P.S. Liss 1

Photochemical and non-photochemical formation and destruction of carbonyl sulfide and methyl mercaptan in ocean waters
O.R. Flöck and M.O. Andreae 11

Trace-metal partitioning in estuaries: importance of salinity and particle concentration
A. Turner 27

Early diagenetic remobilization of copper in near-shore marine sediments: a quantitative pore-water model
A. Widerlund 41

Cadmium in the southwest Pacific OceanTwo factors significantly affecting the Cd–PO_4 relationship in the ocean
I. Kudo, H. Kokubun and K. Matsunaga 55

Production of methanethiol from dimethylsulfoniopropionate in marine surface waters
R.P. Kiene 69

A comparison of methods for the measurement of dissolved organic carbon in natural waters
E.T. Peltzer, B. Fry, P.H. Doering, J.H. McKenna, B. Norrman and U.L. Zweifel 85

An in-situ filtration/extraction system for the recovery of trace organics in solution and on particles tested in deep ocean water
G. Petrick, D.E. Schulz-Bull, V. Martens, K. Scholz and J.C. Duinker 97

Extraction of marine organic matter on XAD-2: Effect of sample acidification and development of an in situ pre-acidification technique
D.E. Slauenwhite and P.J. Wangersky 107

Fractionation of surface active substances on the XAD-8 resin: Adriatic Sea samples and phytoplankton culture media
V. Vojvodić and B. Ćosović 119

Lipid geochemistry of surficial sediments from the coastal environment of Egypt. I. Aliphatic hydrocarbons — characterization and sources
T.A.T. Aboul-Kassim and B.R.T. Simoneit 135

Reduction of volatile halocarbons in anoxic seawater, results from a study in the Black Sea
T. Tanhua, E. Fogelqvist and Ö. Bastürk 159

Sorption of linear alkylbenzenesulfonates (LAS) on marine sediment
J.A. Rubio, E. González-Mazo and A. Gómez-Parra. 171

Stoichiometry of carbon, hydrogen, nitrogen, sulfur and oxygen in the particulate matter of the western North Pacific marginal seas
C.-T.A. Chen, C.-M. Lin, B.-T. Huang and L.-F. Chang 179

Analysis of marine DOC using a dry combustion method
B. Fry, E.T. Peltzer, C.S. Hopkinson Jr., A. Nolin and L. Redmond 191

Organic matter oxidation and sediment chemistry in mixed terrigenous–carbonate sands of Ningaloo Reef, Western Australia
D.M. Alongi, F. Tirendi and A. Goldrick 203
Assessment of the molecular composition of particulate organic matter exchanged between the Saeftinghe salt marsh (southwestern Netherlands) and the adjacent water system
V.A. Klap, J.J. Boon, M.A. Hemminga and J. van Soelen 221
Seasonal variation of dimethyl sulphide in the North Sea and an assessment of fluxes to the atmosphere
S.M. Turner, G. Malin, P.D. Nightingale and P.S. Liss 245
Production of methyl chloride and methyl bromide in laboratory cultures of marine phytoplankton
M.G. Scarratt and R.M. Moore 263
The nitrogen isotopic composition of nitrate in the Kuroshio Water northeast of Taiwan: evidence for nitrogen fixation as a source of isotopically light nitrate
K.-K. Liu, M.-J. Su, C.-R. Hsueh and G.-C. Gong 273
Characterization of the binding sites for Al(III) and Be(II) in a sample of marine fulvic acids
J.C.G. Esteves da Silva and A.A.S.C. Machado 293
Antimony cycling in the western Mediterranean
K. Takayanagi, D. Cossa and J.-M. Martin 303
